- Java-Basics

SOFT SKILLS

- Leadership
- Time Management
- Stress Management

AREA OF INTEREST

- Network Analysis and Synthesis

PROJECTS

- Turbidity Meter by using Arduino UNO
 - The gravity arduino turbidity sensor detects water quality by measuring the levels of turbidity
 - Used skills are Arduino programming, sensor integration, data acquisition, calibration, troubleshooting
 - I Learn Iterative problem-solving, data analysis, hardware optimization, communication, teamwork
- LED Distance Indicator
 - This ultrasonic sensor generates sound waves to measure the distance between itself and the measurement object when the waves are reflected back to the sensor.
 - Used skills are Arduino programming, sensor interfacing, PWM control, troubleshooting
 - I Learn Prototyping, electronic design, iterative testing, problem-solving, technical documentation

➤ CO-CURRICULAR ACTIVITIES
